
SWIMWEAR & EQUIPMENT

SEASON 1/2023

A woman with dark hair is sitting in a swimming pool, looking off to the side with a slight smile. She is wearing a black and blue patterned Speedo swimsuit and a matching swim cap. The background shows the blue water of the pool and some blurred lane lines.

speedo[®]

FASTSKIN AFTER CARE

To ensure your suit lasts as long as possible and performs at its very best, we ask that you take note of the following care instructions...

When putting on your suit do not pull on areas on the thinner more flexible areas of the fabric (highlighted in red). Only pull on the strong seams or the double layered fabric.

Keep away from sharp objects and long nails.

When putting the suit on try to use the pads of the fingers.

Rinse immediately in clean cold water after use. Chlorine will damage the suit over time.

30°C hand wash only with no detergent.

Lay your suit out flat & reshape it after use.

Avoid contact with direct heat. Keep away from the radiator and do not iron.

Wearing the suit for racing only will prolong the lifespan of the suit.

Swimwear After Care

To ensure your swimwear lasts as long as possible, see these small steps on how you can care for your swimwear...

- Rinse immediately in clean cold water after use. Chlorine will damage the suit over time.

- ~~float~~ dry in a warm environment and avoid direct lengthy exposure to the sun.

- Gently squeeze the suit to remove excess water or use a spinner at your local pool.

- Be careful where you sit. If possible, try to sit on a towel as pool side and decks can be abrasive which may snag the suit.

- Follow the washing instructions on the care label after each use.

- Avoid contact with direct heat. Keep away from the radiator and do not iron.

ECO ENDURANCE⁺ PRO

- 100% Chlorine Resistant – for long lasting performance.
- 50% Recycled Content – one of the yarns is made from 100% post-consumer waste, such as recycled plastic bottles
- Get a drier feel after your swim with PFOA – free treatment, an environmentally friendly water repellent which encourages water to roll off the fabric surface
- Inhibit bacterial growth and experience long-lasting freshness with Anti-microbial Sanitized[®] treatment

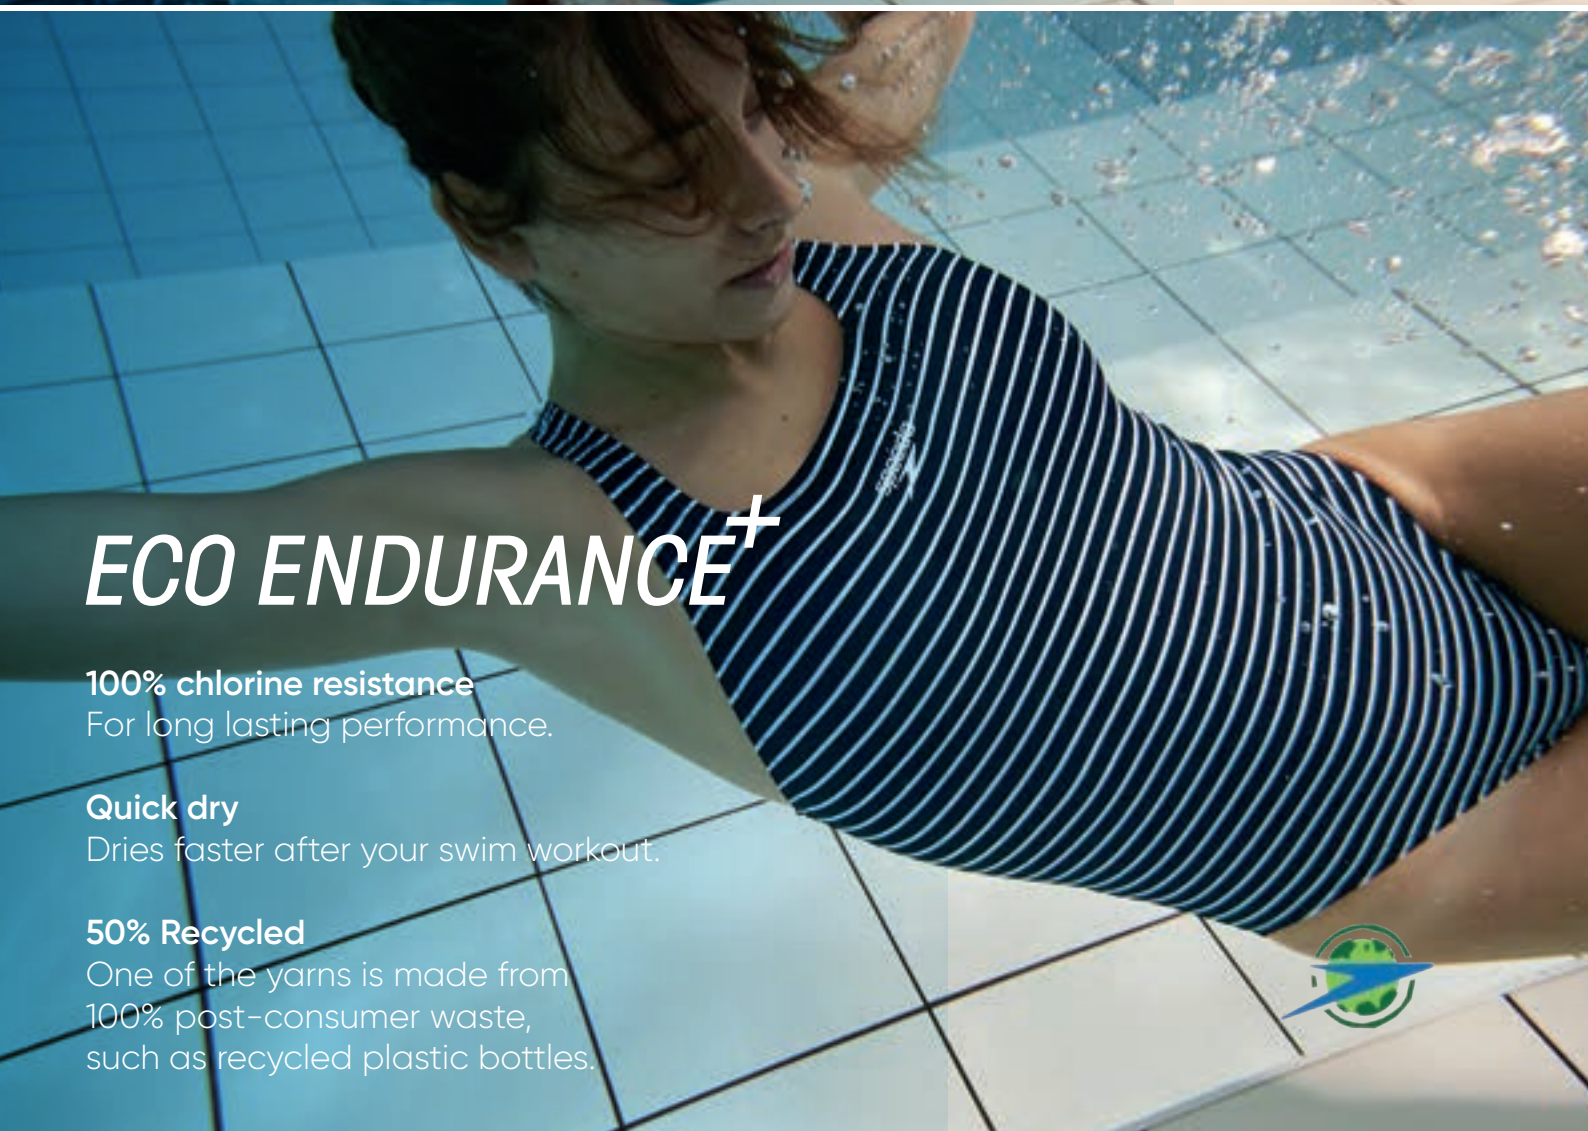

ECO ENDURANCE⁺

100% chlorine resistance
For long lasting performance.

Quick dry
Dries faster after your swim workout.

50% Recycled
One of the yarns is made from 100% post-consumer waste, such as recycled plastic bottles.

ECO ENDURABRITE

- Higher chlorine resistance than standard swimwear fabrics – fits like new for longer with Creora highclo.
- High colour performance – enabling the use of fluo and bright colours.
- Made from recycled plastic bottles – the yarn in the fabric is made from 100% post-consumer waste, such as recycled plastic bottles.

ECO ENDURAFLEX

Made from recycled waste fabric

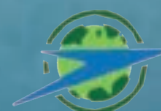

Yarns in the fabric are made from 100% pre-consumer waste, such as waste fabric from factories.

Higher Chlorine Resistance

Than standard swimwear fabrics.

Shape retention

Fabric stretched so you can enjoy your swim without feeling restricted.

ENDURANCE⁺

**Designed to
last longer**

100% Chlorine resistant
For long lasting performance.

Quick dry
Dries faster after your swim workout.

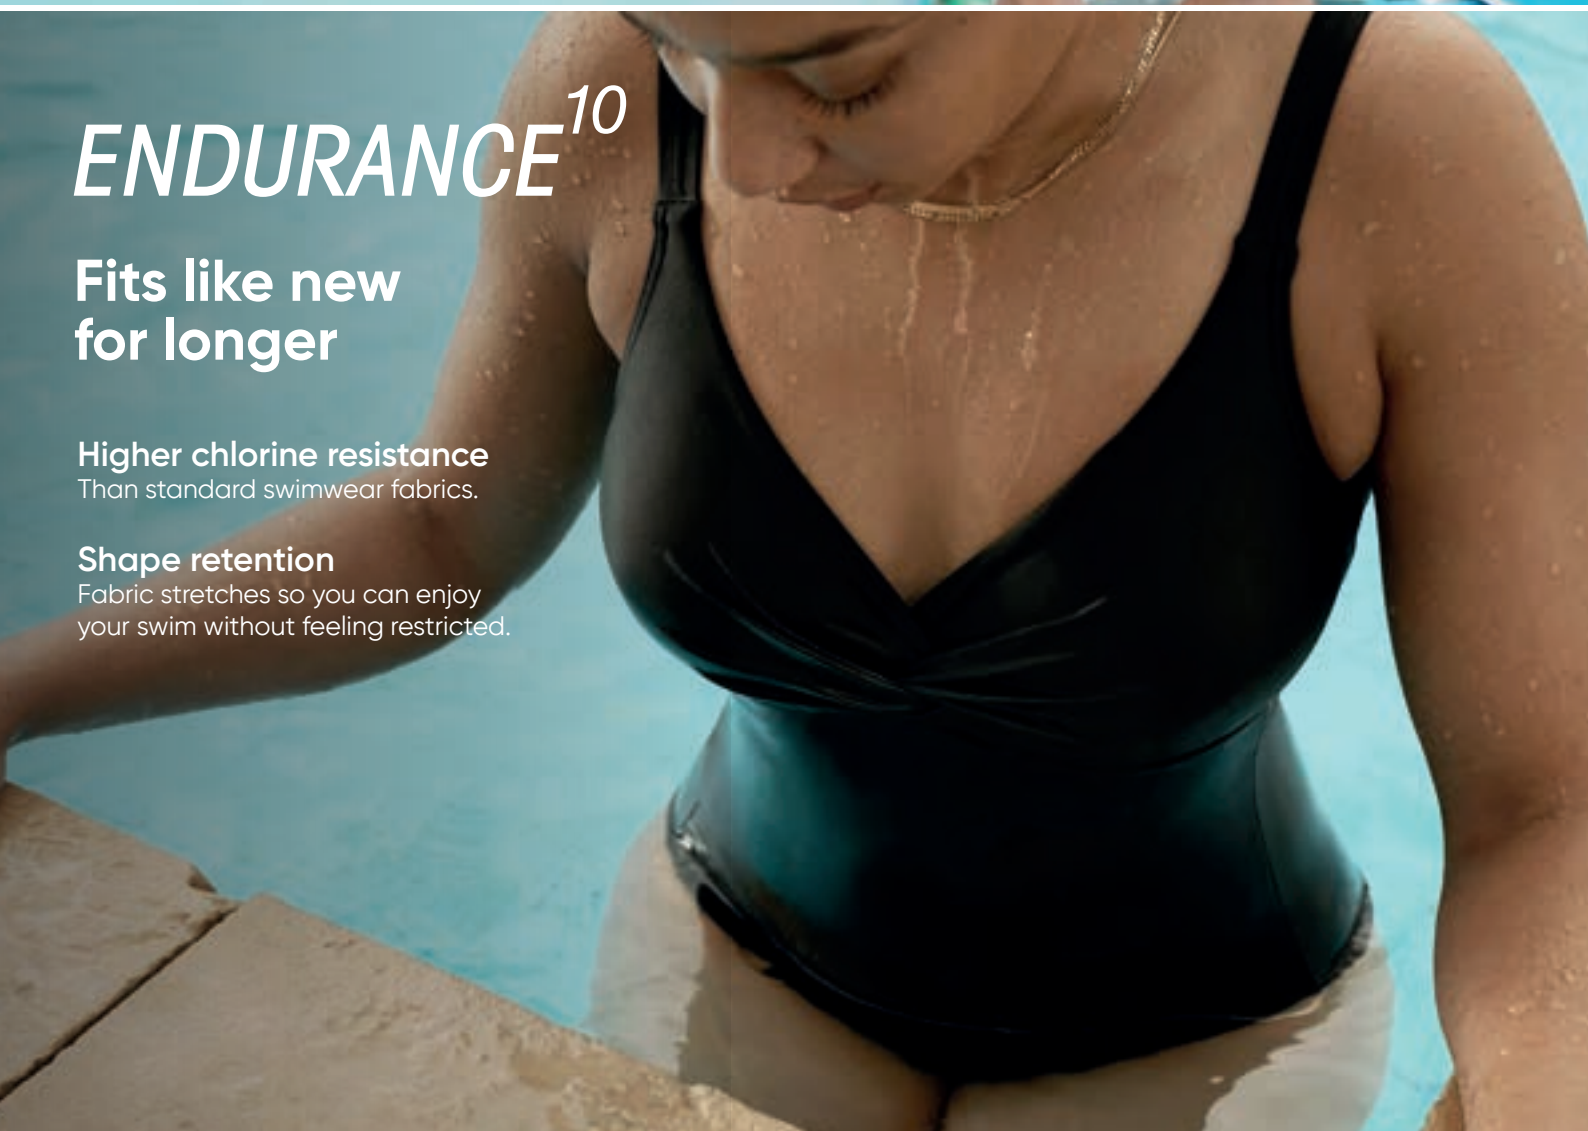

ENDURANCE¹⁰

**Fits like new
for longer**

Higher chlorine resistance
Than standard swimwear fabrics.

Shape retention
Fabric stretches so you can enjoy
your swim without feeling restricted.

100% Recycled Nylon

This fabric is made from 'pre-consumer waste' which is recycled materials that were discarded before it was ready for consumer use.

Waste fabric from factories is collected up and transformed into a new nylon fibre.

Female swim short styles available in this fabric.

ECO Xpress Lite – 100% Recycled Polyester

- Made by recycling waste plastic such as plastic bottles, and other plastic products into a polyester fabric.
- Water repellent finish – stays dry to the touch.
- Lightweight fabric – so your shorts won't weigh you down.

ECO Peach Poly 100% Recycled Polyester

These fabrics are made from 'post-consumer waste' which is recycled materials that were discarded after use.

Waste plastic such as plastic bottles are recycled into these polyester fabrics.

ECO YARN DYE

Fabric is made from recycled plastic - the yarn in the fabric is made from 100% post-consumer waste, such as recycled plastic bottles.

ECO SHAPE COMPREX

Power fabric that shapes the body

Control fabric

Combines shapewear innovation with swimwear technology.

Shaping

Controls the body and gives a smooth silhouette.

Ultra chlorine resistance

LYCRA® XTRA LIFE™ lasts twice as long as standard swimwear fabrics.

LYCRA® XTRA LIFE™ is a trademark of The LYCRA Company

Glossary of Fabrics

Swimwear

Eco Endurance+ Pro

- 100% Chlorine Resistant – for long lasting performance
- 50% Recycled Content – one of the yarns is made from 100% post-consumer waste, such as recycled plastic bottles
- Get a drier feel after your swim with PFOA – free treatment, an environmentally friendly water to roll off the fabric surface
- Inhibit bacterial growth and experience long-lasting freshness with an Anti-microbial Sanitized® treatment.

Eco EnduraBrite

- Higher chlorine resistance than standard swimwear fabrics – fits like new for longer with Creora highclo
- High colour performance – enabling the use of fluo and bright colours
- Made from recycled plastic bottles – the yarn in the fabric is made from 100% post-consumer waste, such as recycled plastic bottles.

Eco Endurance+ Max

- 100% chlorine resistance – for long lasting performance
- Quick dry – dries faster after your swim workout
- 100% Recycled – both the Polyester and PBT yarns are made from 100% post-consumer waste, such as recycled plastic bottles.

Eco Endurance+

- 100% chlorine resistance – for long lasting performance
- Quick dry – dries faster after your swim workout
- 50% Recycled – one of the yarns is made from 100% post-consumer waste, such as recycled plastic bottles.

Speedo Eco Enduraflex

- Made from recycled waste fabric
- Higher chlorine resistance than standard swimwear fabrics
- Shape retention – fabric stretched so you can enjoy your swim without feeling restricted

ShapeComplex Ultra

- Control fabric – Combines shapewear innovation with swimwear technology
- Shaping – Controls the body and gives a smooth silhouette
- Ultra chlorine resistance – LYCRA® XTRA LIFE™ lasts twice as long as standard swimwear fabrics

Endurance+

- 100% Chlorine resistant – For long lasting performance
- Quick dry – Dries faster after your swim workout

Endurance 10

- Higher chlorine resistant than standard swimwear fabrics – Fits like new for longer with CREORA HighClo
- Shape retention – Fabric stretches so you can enjoy your swim without feeling restricted.

Watershorts

100% Recycled Polyester – Xpress Lite ECO

- Made by recycling waste plastic such as plastic bottles, and other plastic products into a polyester fabric
- Water repellent finish – stays dry to the touch
- Lightweight fabric – So your shorts won't weigh you down.

100% Recycled Polyester – Peached Poly Eco

- Made by recycling waste plastic such as plastic bottles, and other plastic products into a polyester fabric
- Brushed finished for softer handfeel.

Eco Yarn Dye

- Fabric is made from recycled plastic – the yarn in the fabric is made from 100% post-consumer waste, such as recycled plastic bottles.

100% Recycled Nylon

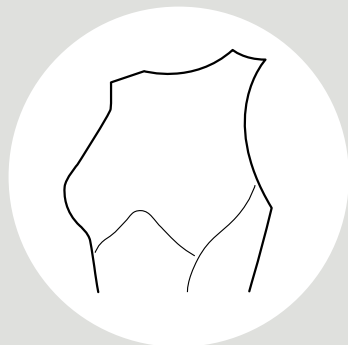

- Made from waste fabric from factories, that's collected up and transformed into a new nylon fibre
- Lightweight fabric.

Bust Support

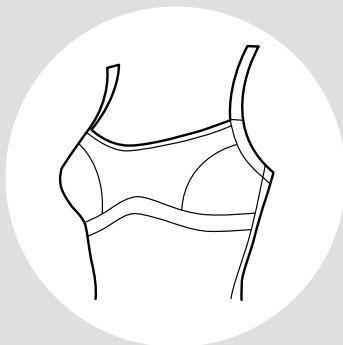

Higher Support

Lighter Support

360 Bust Support

Our highest level of support. A continuous underband ensures there is a firm pull on the powermesh bra liner that holds you in place.

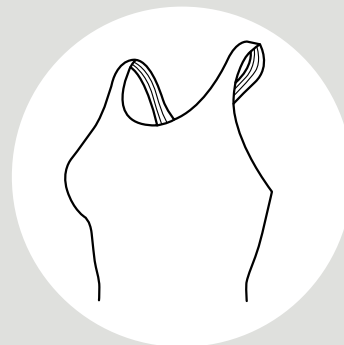

Underbust Seaming

An underbust seam allows the area of the suit under your bust to sit closer to the body. It also enables us to add extra capacity into the bust area, so that fuller busts are comfortably contained.

When combined with our clipback and adjustable straps, an even greater level of support can be achieved.

Available in some styles with removable pads for increased shaping effect.

Bust Shelf Liner

An elasticated underband and bust liner help to support you.

When combined with our ShapeComplex Ultra shaping fabric, a greater level of support can be achieved.

Available in some styles with removable pads for increased shaping effect.

Swim Backs Best for flexibility & security

Medalist

A much-loved style that's a kit bag essential! The Medalist's straps sit between your shoulders, which is great for movement and the modest back opening gives you flexibility without feeling too exposed.

Laneback

The Laneback is great for swimmers looking for both support and flexibility. The straps leave the shoulders open to enable movement, with a wider back opening than the Medalist. All Lanebacks feature a bust shelf liner, and some also have removable pads, to give extra reassurance during your swim.

Muscleback

The Muscleback gives swimmers similar shoulder flexibility to the Medalist and Laneback, but with increased coverage on the back. This is a great style for active swimmers who want a little more coverage.

Thinstrap Muscleback

The Thinstrap Muscleback has the same back coverage as the Muscleback style, but with thinner straps for those swimmers who want more flexibility and unrestricted shoulder movement.

Racerback

A Speedo classic, the Racerback offers full back coverage without getting in the way of your swim. Cut outs around the shoulder blades ensure shoulders can move comfortably. Some of our suits feature 360 bust support – our highest level of support – for security and comfort during your swim

Flyback

The Flyback is a modern twist on the Racerback, with skinny Racerback straps. The fit keeps your shoulder blades unrestricted whilst the back opening is modest and provides just the right amount of coverage.

Swim Backs Best for support

Zip Backs

Featuring a high neck and zip-up back, the Hydrasuit styles give a supported, streamlined swim, whilst a high cut leg ensures you can kick freely. The Hydrasuit features a bust shelf liner for medium bust support – for security and comfort during your swim

Kickback

The Kickback features the iconic Medalist's straps which give your shoulders the same freedom of movement. But with a high back, gives increased coverage and provides a more secure bust support, combined with the internal bust shelf liner.

Clipback

The clip back fastening and adjustable straps of this style, combined with underbust seaming ensure that everything is held in place! Great for fitness classes in the water, as well as swimming.

Crossback

The Crossback's adjustable straps offer security in and out of the water, whilst removable pads give you the option of increased shaping and modesty. A great option for fitness classes in the water, as well as swimming.

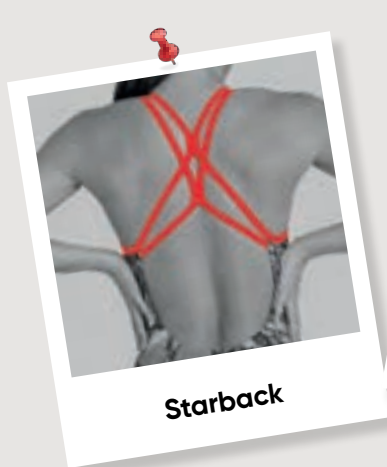

Scoopback

The scoop design can be found on a number of our suits, and combined with adjustable straps offers a great combination of support and simplicity, whilst being easier to get in and out of! The Scoopback is available with underbust seaming, and removable pads – with many different styles to suit all body types. A great option for fitness classes in the water, as well as swimming.

Meet the Speedo Club Training Range!

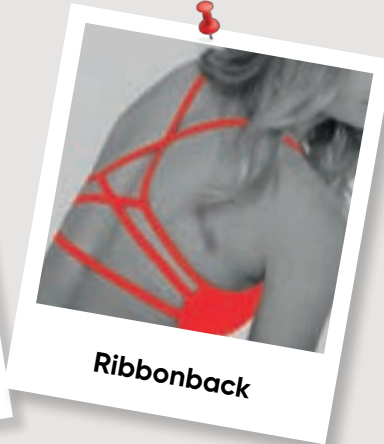

Graphics and colours are updated each season so you can stay on trend!

Fixed Backs

Starback

For all you swim stars out there! A stunning star shape pattern made from thin dual fixed straps that stay put while you do your thing! Combined with a high leg cut this gives you great freedom of movement and flexibility for pulling, kicks & turns!

Ribbonback

A beautiful double cross-over design that stays in place while you power through your sets. Ultimate freedom of movement with an extra-high leg cut.

V back

Simple yet stylish – a clean cut strap design gives you great comfort and flexibility so you can focus on your training. Ultimate freedom of movement with an extra-high leg cut.

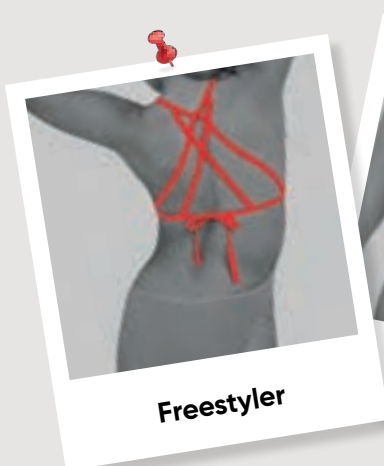

Cross-back Crop Top

For the two-piece fans out there! Simple straps cross over the back and sit in the sweet spot between your shoulder blades. Match up with our Hipster Brief – ready, set go!

Meet the Speedo Club Training Range!

Graphics and colours are updated each season so you can stay on trend!

Tie Backs

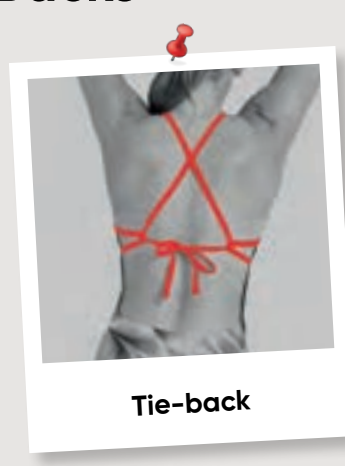

Freestyler

It's all about the detail in this stunning Freestyler – with an intricate back strap design & criss-cross hip detailing you'll be sure to stand out poolside. The back is semi-adjustable so you can get the right fit for you, whilst an ultra-high leg doesn't hold you back!

Freestyler

Tie-back

These straps can be fully adjusted to achieve the perfect fit – tie in a bow and you're ready to go! A movement maximising extra-high leg is great for all strokes.

Tie-back Crop Top

A crop top version of our tie back style but as a two piece. Fully adjustable straps for a tailored fit, paired with our waistband brief and your ready to train!

EQUIPMENT & FOOTWEAR

SEASON 1/2023

speedo

speedo®

Engineered for serious swimmers

For serious competition and fitness swimmers, goggle fit is vitally important. You want to put on your goggles and forget you're wearing them. So you're free to focus on performing better and achieving more in the water.

At Speedo, we understand this. Our researchers at the Speedo Aqualab® carried out extensive global head scanning, helping us to create goggles that are truly designed for real world faces. The result is an unparalleled, precision fit that inspires confidence and frees you to be the best you can.

Data Driven Design

Real world head scanning helped create a product that fits the contours of the face much better.

IQfit™ Strap

Unique and innovative tensioning scale enables you to achieve a secure and accurate fit every time.

IQfit™ Seal

3D goggle seal ensures maximum leak resistance*, reduced marks* & a secure fit with less strap tension.

Available in both Western & Asia Fit

*89% of swimmers agree vs Speedo Aquasocket goggle

**Vs Speedo standard goggles

BIO FUSE
FLEXIBLE COMFORT

FLEXIBLE FRAME 2.0

The flexible frame has a new sleek design that stretches and adapts more intricately to your nose and face contours – for a super snug fit.

CUSHIONED COMFORT

Super-soft seals with a new groove design – offering the same best-selling fit that moulds to fit your eye contours.

CRYSTAL – CLEAR VISION

Anti-fog is now a spray coating instead of impregnated – delivering better visual clarity that conforms to newly adopted ISO 18527-3.

STABILITY SHAPING

New concave channels around the nose bridge provide stability – whilst higher clearance ensures a gentle yet comfortable fit that keeps its shape on your face.

ULTIMATE UV PROTECTION

Polycarbonate lenses feature UV400 protection to ensure the eyes are shielded from all harmful UVA & UVB radiation.

BIO FUSE
FLEXIBLE COMFORT

WIDE VISION

The newly crafted lens shape offers excellent peripheral vision – for a breathtaking & immersive underwater experience.

ERGONOMIC SPLIT-STRAP

Stylish low-profile strap with ergonomic yoke for hair management – complete with traction gears for a secure & comfortable fit.

CORE STRENGTH

The strong internal frame is wrapped in a soft gel-like skin – maintaining exceptional stability on your face during strokes & turns.

EASY ADJUSTMENT

New patented push button mechanism allows fast & effective fitting – so you can concentrate on getting the most out of your swim.

BIOFUSE
FLEXIBLE COMFORT

**BIO SYNTHETIC
POLYCARBONATE**

World's first polycarbonate material manufactured from renewable feedstock used in lenses.

**BIO SYNTHETIC
SEBS**

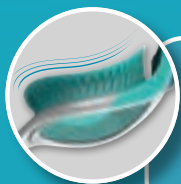

First ever use of biobased SEBS incorporated into the frame and gaskets.

**BIO SYNTHETIC
NYLON**

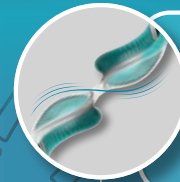

First ever use of biobased polyamide incorporated into new push button & adjuster.

Super-soft flexible seal

Super-soft flexible seals offer greater flex vs previous Biofuse goggles for an even softer and more cushioned fit.

Flexible frame adapts to face

Flexible external frame adapts to the contours of your face for an individual fit.

Wide Vision lenses for an immersive experience with enhanced peripheral vision.

Stability fit

Rigid internal frame provides stability on face during strokes.

Biofuse
FLEXIBLE COMFORT

OUR BEST JUST GOT BETTER

For everyday swimming, look no further. Our critically-acclaimed Futura Biofuse Flexiseal range offers the ultimate in Speedo goggle comfort. Designed using super-soft, flexible materials and featuring our best-selling Speedo Biofuse® technology, Biofuse goggles are so comfortable you could even forget you're wearing them.

LONG BLADE FIN

Ideal for all levels of training, the longer length of the Long Blade Fin allows for a lighter kick so you can achieve a propulsive whip during speed work and drills.

Use it to help establish stroke cadence for longer endurance sets and to add speed and power to technique sessions.

Made from 100% natural rubber.

Foot pocket colour varies per fin size.

Helps improve technique and speed, great for all levels of training, teaching & recreation.

Soft orthopedic foot pockets for comfortable extended use.

Long blade provides extra power and force.

SIZE CHART

Size	Weights (gms)	Fins Length (mm)	Fins Width (mm)	Height (mm)	Foot length dimension (mm)	EU	US	UK

XXL	651	480	210	76	276	46-47	12-13	11-12

Foot pocket colour varies according to fin size.

BLOOM Speedo Partnership

Excessive amounts of CO₂, a warming climate and water pollution is causing a rise in harmful algae blooms that negatively affect our environment. We are working in partnership with Bloom, who operate globally to help clear freshwater ecosystems, where harmful algal blooms are damaging marine life.

Through environmental restoration, algae is harvested and then used as a renewable resource by creating an eco-conscious material base. During this process CO₂ is captured and clean water and air is returned to the environment, helping to revitalize and maintain healthy ecosystems, reversing the effects of modern-day water pollution.

With every individual Kickboard and Pull Buoy produced in partnership with Bloom, we are helping to restore balance to the eco system through the power of new materials.

Kickboard:

51 bottles of clean water and 32 M³ of clean air returned to the environment per product.

eco-facts

Pull buoy:

50 bottles of clean water and 31 M³ of clean air returned to the environment per product.

Long Blade Fin 8-11982G776 Different Colour By Size

Features

- Helps to establish stroke candence for longer endurance sets
- Soft foot pocket for ultimate comfort
- Great for all levels of training
- Fins are a different colour per size
- Made from 100% Natural Rubber

Available Sizes: XXS, XS, S, M, L, XL, XXL
Composition: 100% Natural Rubber

Biofuse Training Fin 8-08841F960 Fluro Tangerine/Pool Blue/Blue Flame

ECO ENDURABRITE

Features

- Speedo Biofuse technology for maximum comfort and fit
- 100% Silicone for excellent comfort
- Strengthen leg muscles - added resistance increases the workload on your leg muscles which improves strength and endurance
- Increase workout speed - Training Fins add extra propulsion to the stroke, which increases speed with minimum effort leaving you free to ingrain correct technique.
- Develop ankle mobility - The increased surface created by the Training Fins forces ankle extension during kicking, which makes the kick more propulsive and efficient.

Available Sizes: 2-3, 4-5, 6-7, 8-9, 10-11, 11-12
Composition: Silicone

Biofuse Fitness Fin 8-08766F960 Fluro Tangerine/Pool Blue/Blue Flame

Biofuse

Features

- Speedo Biofuse technology for maximum comfort and fit
- 100% Silicone for excellent comfort
- Strengthen leg muscles - added resistance increases the workload on your leg muscles which increases strength and endurance
- Increase workout speed - Fitness Fins add extra propulsion to the stroke, which increases speed with minimum effort leaving you free to ingrain correct technique.

Available Sizes: XS, S, M, L, XL
Composition: Silicone

Training Aids

Tech Paddle

8-73312D699 Lava Red/Chill Blue/Grey

Features

- Hydrodynamic design for optimum contact with water
- Flow holes enhance aquatic sensitivity, and its unique air foil shape improves your hand lift motion
- Increases arm strength- Paddles increase resistance, making you work harder to pull your arms through the water, which strengthens your back, chest, shoulder and arm muscles
- Improve stroke - Tech Paddles help you to create the perfect pull.

Available Sizes:

S, M, L

Composition:

Paddle: PP / Strap: Silicone

Finger Paddle

8-73157F959 Blue Flame/Fluro Tangerine/Pool Blue

Features

- Speedo Biofuse technology for maximum comfort and fit
- Stroke technique - Finger paddles allow you to focus on hand positioning in the water, improving catch position and arm pull.
- Upper body strength - Finger paddles increase resistance in the water which raises the intensity of your workout and improves upper body strength and power.

Composition:

Main Body: PP / Overmould: TPR / Finish: Silicone

Power Paddle

8-73156F959 Blue Flame/Fluro Tangerine/Pool Blue

Features

- Speedo Biofuse technology for maximum comfort and fit
- Increase distance per stroke - Power paddles encourage high elbows and proper hand entry into the water, making stroke technique more efficient. This conserves energy which is crucial for long distance swimming.
- Upper body strength - Power paddles increase the surface area of the water you catch, which increases resistance, improving your strength and endurance.

Available Sizes:

M, L

Composition:

Main Body: PP / Overmould: TPR / Finish: Silicone

Pullkick Foam

8-017900312 Fluro Tangerine/Blue Flame

Features

- Engineered for optimum buoyancy
- Space saving design doubles as a pullbuoy and kickboard
- Engineered for comfort

Composition:

EVA

Kick Board

8-01660G063 Fluro Tangerine/Blue Flame

Features

- Grip holes increase grip
- Contoured for extra comfort
- Kick technique - increasing buoyancy isolates your lower body, leaving you free to focus on your kick technique.
- Leg strength - Kickboards allow you to build up leg muscle and strength, by forcing your lower body to do all of the hard work.

Composition:

EVA

Kick Board

8-0166015466 Fed Red/Blue Flame

Features

- Grip holes increase grip
- Contoured for extra comfort
- Kick technique - increasing buoyancy isolates your lower body, leaving you free to focus on your kick technique.
- Leg strength Kickboards allow you to build up leg muscle and strength, by forcing your lower body to do all of the hard work.

Composition:

Training Aids

Pullbuoy Foam 8-01791G063 Fluro Tangerine/Blue Flame

Features

- Improved comfort and rounded design
- Ideal for learning new drills and technique work
- Arm strength - A Pullbuoy can be used with any stroke to isolate the muscles in your upper body, forcing them to do the work of propulsion, increasing arm and shoulder strength.
- Endurance - Increasing buoyancy keeps your body in a better position even as you get tired, so it's easier to swim for longer.

Composition: EVA

Pull buoy Foam 8-0179115466 Fed Red/Blue Flame

NEW

Features

- Improved comfort and rounded design
- Ideal for learning new drills and technique work
- Arm strength - A Pullbuoy can be used with any stroke to isolate the muscles in your upper body, forcing them to do the work of propulsion, increasing arm and shoulder strength.
