

# FALL WINTER 2023

Seasonal Catalogue

## FOOTWEAR FEATURES

### DRAINAGE HOLES

Holes are placed in the sandal's footbed to expel water, allowing the sandals to dry quickly and remain comfy.

### MASSAGE EFFECT

The "picot" footbed stimulates the sole with its embossed design.

### EASY TO WEAR

The construction and the materials used in these sandals make them especially easy to put on.

### QUICK DRYING

The material doesn't absorb water and dries quickly.

### ULTRA LIGHT

The use of EVA in soles makes the sandals extremely lightweight.

### EXTRA CUSHIONING

Materials and construction of the footbed yields superior softness and cushioning.

# FOOTWEAR

### SANDALS

Hypoallergenic sandals that stands out from the crowd for their signature and essential lines are provided with the best materials.

*POOL:* designed for the pool, with distinctive features tailored for water management: drainage holes (letting water flow out of the insole to keep it dry).

*MULTISPORT:* made with comfort in mind, they inherit arena's expertise with water management but translate it into a more versatile approach.

*LIVING:* following and anticipating today's trends, they bring their sporty DNA into leisure environments.

### WATERSHOES

Basic lines combined with highly quality materials deliver a classic style and a reliable performance.
