

FOOTWEAR FEATURES

DRAINAGE HOLES

Holes are placed in the sandal's footbed to expel water, allowing the sandals to dry quickly and remain comfy.

MASSAGE EFFECT

The "picot" footbed stimulates the sole with its embossed design.

EASY TO WEAR

The construction and the materials used in these sandals make them especially easy to put on.

QUICK DRYING

The material doesn't absorb water and dries quickly.

ULTRA LIGHT

The use of EVA in soles makes the sandals extremely lightweight.

EXTRA CUSHIONING

Materials and construction of the footbed yields superior softness and cushioning.

FOOTWEAR

SANDALS

Hypoallergenic sandals that stands out from the crowd for their signature and essential lines are provided with the best materials.

POOL: designed for the pool, with distinctive features tailored for water management: drainage holes (letting water flow out of the insole to keep it dry).

LIVING: following and anticipating today's trends, they bring their sporty DNA into leisure environments.

WATERSHOES

Basic lines combined with highly quality materials deliver a classic style and a reliable performance.

003787 - NINA
