SUPPORTING NATIONAL FEDERATIONS AND TOP ATHLETES

Since 1973, arena has prioritized strong connections with the most important swimming and watersports federations around the world, providing support from the grassroots level to the Olympics and Paralympics.

National Federations play a critical and active role in the development of both amateur and elite watersports.

We share their goal to grow watersports, increasing inclusivity and diversity and using sport as a driver for social wellbeing. We share their commitment to make the water accessible for people to relax, train and compete.

At the heart of the arena brand are its athletes, who are both key collaborators in the product development cycle and important ambassadors for the brand, upholding its values and expressing its authenticity.

Since Mark Spitz first teamed up with Horst Dassler in 1973, arena's progression to the top of its field has been accomplished in partnership with world class swimmers. Their voices are not only emblematic of the brand's emphasis on quality, they're also an inspiration for many, from the amateur who goes to the pool to stay fit and lead a healthy lifestyle, to those that mount the Olympic podium, and importantly also the backroom staff who have helped craft and live the entity that arena has proudly become.

Following the outstanding performance of its legendary team at the Paris 2024 Olympic Games and its continued success in international competitions, arena continues to capture the world's attention and generate excitement and anticipation for the next wave of swimming events.

CSR MANIFESTO

BUILDING A BETTER FUTURE TOGETHER

At arena we recognize that everything we do has an impact on the planet we live on, as well as its people.

We strive to help create a future that continues to allow everyone to enjoy swimming and water sports in a healthy environment.

That's why we're committed to having a positive impact on you, the environment and our communities, inspired by our passion for sports and life in and by the water, our most abundant natural element.

As a leader in the sports realm our commitment to 'responsibility' represents the conscious and effortful way in which we plan to measure our footprint and invest in our planet.

arena's products are designed to help and inspire people to be active and to move towards the best version of themselves by being healthier and connected to nature.

As part of that philosophy, quality and durability are key considerations in our design process in order to guarantee that our products are long-lasting and don't need to be replaced frequently, thus reducing waste.

We choose partners who share our values and, like us, invest in both the planet and its people.

We care about the well-being and rights of employees working in the manufacture of arena's products and are committed to being transparent about our partners and policies.

We support local communities and promote water-sports through sponsorship and collaboration with national sports federations, sports teams, and international governing bodies.

We are an equal-opportunity employer and value diversity ensuring equal treatment for all our employees across the globe.

The arena brand was born in water, and for over 50 years has thrived in its element.

We've learned that to do so requires courage, responsibility, and action, and we remain resolute in our desire to give everyone the opportunity of living their deep connection with water: that feeling of freedom and peace, joy and profundity we all experience in and by the water.

RESPONSIBLE PRODUCTS

To design and manufacture all products in a progressively more environmentally conscious way is a key step in the commitment we have taken.

We are constantly working to develop more sustainable garments and accessories to reduce our environmental impact, while still guaranteeing the same distinctive performance, quality, protec-

tion, style, comfort and fit that sets arena apart.

We are working with sustainable fabrics made with recycled fibers pre and post consumer, with organic fibers and certified according to third-part international certifications.

Starting from SS22, season by season, we have steadily increased the number of styles with responsible features, such:

- Recycled fibers: Commitment to use third-party certified materials such as the Global Recycled

Standard for fabrics

- Organic cotton: Cotton grown using agricultural methods that do not use synthetic pesticides, chemical fertilizers, or other harmful chemicals.

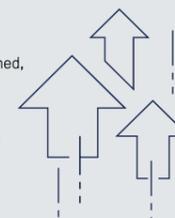

- OEKO-TEX Made in Green certification: The certification focuses on product safety and sustainable manufacturing processes.

We proudly accept the challenge of ensuring excellent product performance while pursuing environmental and social sustainability.

ARENA DESIGN PILLARS

HIGH PERFORMANCE

Maximum comfort and performance are priorities in our swimwear. Our innovative materials and streamlined, athletic cuts focus on ease of movement and comfort for all body types, whether you are swimming laps or enjoying leisurely dips in the ocean.

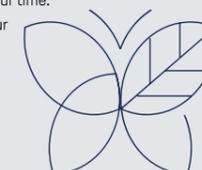

DURABILITY

Durable, multi-use products reduce environmental harm over long life cycles. We select high-quality, long-lasting materials and components so your swimsuit and other products withstand many seasons of swimming.

LOW ENVIRONMENTAL IMPACT

Choosing eco-friendly materials, and cutting waste and pollution, are vital for dealing with the environmental challenges of our time. Circular models are essential to our brand mission, with optimized production processes to minimise waste and environmental harm.

RESPONSIBLE SUPPLY CHAINS

Responsible, ethical supply chains that positively impact and inspire communities and protect resources for future generations through fair, sustainable practices for each individual product made.

RESPONSIBLE PACKAGING

All the elements necessary in the delivery of products to the consumer have an impact on the environment. To reduce this impact, we are using sustainable materials for our packaging (hangtags, pouches, polybags, boxes, etc.).

The FSC logo on our packaging ensures that it has been made in compliance with rigorous environmental, social and economic standards, which aim to protect the world's forests and ecosys-

tems that depend on them and respect local communities and the rights of workers.

This choice supports the mission of the Forest Stewardship Council®, an international NGO that has been promoting responsible forest management for over 25 years.

Following the approach taken in FW25 for swimwear pool and sportswear, starting from SS26, racing hangtags have also been reduced in size and simplified by consolidating two hangtags into one. This adjustment has led to significant raw material savings.

The mark of responsible forestry

WOMAN ARENA ONE

Athletic swimsuits with a cutting-edge, elegant design and long-lasting fabrics, that stand out wherever you swim.

FABRICS

∞ MAXLIFE ECO

- Maximum resistance to chlorine.
- 100% POLYESTER made with minimum 50% recycled polyester.
- Obtained from PET Bottles.
- Enhanced power retention.
- 50+ UV protection.

PRODUCTS BENEFITS

The advanced single piece design used in the new ONE training suit makes the swimmer feel at one with the water delivering the following benefits:

FREEDOM OF MOVEMENT

The absence of side seams produces even stretch throughout the suit for a supremely comfortable fit that feels like a second skin, giving the swimmer the sensation of no constraints in the water.

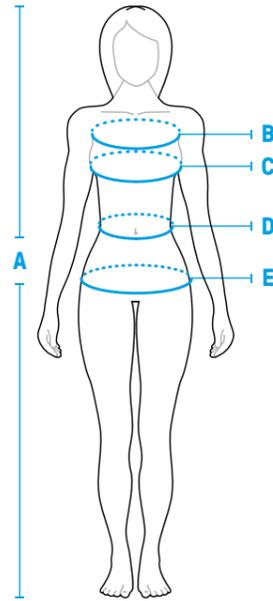

LIGHTNESS

The suit's one-piece construction reduces overall water absorption, thus creating less drag and making the swimmer feel lighter in the water.

EXTREME DURABILITY

The lack of side seams dramatically reduces stress on the suit.

BEACHWEAR

Since 1973 arena's dna has been forged in water, delivering innovation and style in water sports. Our long expertise of performance, comfort, fit is now instilled in a leading-edge range of beachwear dedicated to everybody with a magnetic connection with water. **Inspired by performance.**

FABRICS

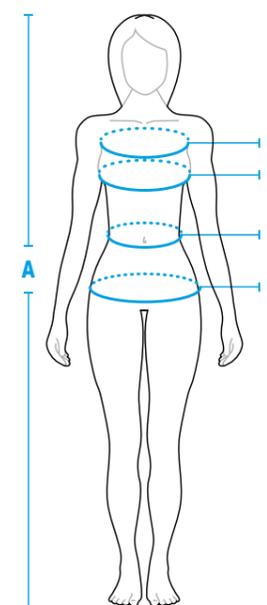

arena is constantly striving to increase use of recycled polyester and recycled polyamide; more sustainable options made from preconsumer materials and post-consumer waste such as plastic (PET) bottles and produced adopting a circular economy approach that helps save energy.

Sensitive SAND

Lightweight yet highly resistant, Sensitive® Sand fabric has a natural feel and an impalpable texture. Unique in performance, it guarantees comfort, wearability, no curling, and no pilling. Engineered for body shaping, support and control.

- 73% Polyamide, 27% Elastane
- Obtained from industrial waste.
- Made with LYCRA®, delivering superior comfort, enhanced quick-drying properties and breathability.

FABRICS

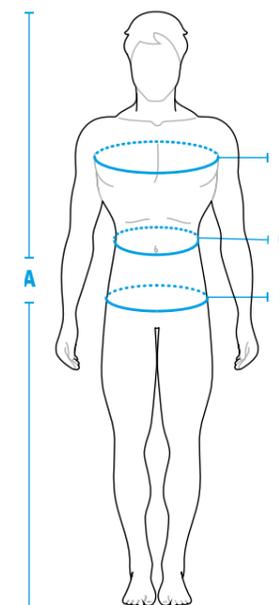

arena is constantly striving to increase use of recycled polyester and recycled polyamide; more sustainable options made from preconsumer materials and post-consumer waste such as plastic (PET) bottles and produced adopting a circular economy approach that helps save energy.

Sensitive POWER-EVO

Sensitive® Power Evo is a high-tech fabric designed to adapt to any look and lifestyle, providing a perfect fit and maximum comfort at any time of day.

- 74% Polyamide, 26% Elastane
- Obtained from industrial waste.
- Lightweight, quick-drying and breathable.

EQUIPMENT

Everything swimmers need in and by the water, to get the best of their water experience.

GOGGLES FEATURES

All arena goggles have UV protection and adapt perfectly to most facial profiles, avoiding any water leakage. A perfect fit also allows no humidity, protecting the lenses from fog.

Tested for compliance with internationally recognized ISO 18527-3:2020 standards, these swimming goggles ensure safety and performance through safe materials, impact-tested construction, optical clarity and a minimized risk of water leakage. All arena goggles have UV protection and adapt perfectly to most facial profiles. A perfect fit also allows no humidity, protecting the lenses from fog.

- NO LEAK
- ANTI FOG
- MAX COMFORT
- UV PROTECTION

1 LENS

- HARD**
High-performance lenses made from polycarbonate, which is durable and impact-resistant with superior optical clarity.
- MIRRORED**
Extra shading against light for outdoor swimming, frequent use in well-lit pools and in competitions.
- SUPER ANTI FOG**
The most advanced coating treatment. Lasts longer, thanks to an invisible layer that washes away vapor generated from sweat, moisture and water.
- SWIPE ANTI FOG**
Revolutionary anti-fog protection that lasts 10 times longer and can be re-activated by swiping the lenses with your fingers.

LENS TINTS

CLEAR MEDIUM DARK

- CLEAR:** These goggles with clear lenses are ideal for low-light environments and for those who prefer maximum brightness while swimming.
- MEDIUM:** These goggles with medium-dark lenses are suitable for all uses and variable or intermediate light levels.
- DARK:** These goggles with dark lenses are good for swimming in brightly lit environments or for those who prefer maximum light shielding.

2 SEALS

- SOFT SILICONE**
Seals made of hypoallergenic silicone for great softness, resilience, and comfort.
- JAPANESE RUBBER**
Soft TPR layer moulded over the lens on goggles without gaskets.
- LIQUID CORE TECHNOLOGY**
Liquid silicone offers the ultimate goggle comfort, fit, durability and elasticity.
- AIR SEALS**
Adaptive cushioning that are designed to compress and distribute the pressure only where needed, delivering a super light feeling.
- CLOUDFLEX**
Brand-new cushioning system that comes as a bolder and more advanced solution to deliver top-notch flexibility, ergonomics and effective stress distribution. Now available for the new Air Sonic.

4 STRAP

- SINGLE**
Simple, intuitive strap for classic comfort.
- DUAL**
Facilitates optimum fit through ability to apply tension on different areas of the head.
- SPLIT**
Combines simplicity and flexibility for a snug, comfortable fit.

3 NOSE BRIDGE

- INTERCHANGEABLE**
Three options available, with 3, 4, or 5 different levels for a custom fit and best possible comfort.
- SELF ADJUSTING**
Adaptable nose bridge that conforms to the shape of the face while wearing it.
- ADJUSTABLE**
Nose bridge that can be regulated on two different levels according to individual need.
- HIGH**
Located higher up on the frame to provide additional room for the nose or accommodate those with atypical facial profiles.

5 FIT

- SMALL**
Different density on frame and seal materials offer superior fit and comfort.
- MEDIUM**
Seals made of hypoallergenic silicone for maximum softness, resilience, and comfort.
- LARGE**
Soft TPR layer moulded over the lens on goggles without gaskets.

GOGGLES

COMPETITIVE

Designed for competitive swimmers and approved by FINA, arena Racing goggles combine innovative materials and a hydrodynamic profile that reduces drag and enhances vision, while delivering comfort and durability.

FITNESS

arena goggles are designed to protect your eyes, ensure the best visibility and deliver maximum comfort in the water, as if you were looking with your own eyes.

CONSUMER TARGET

TRIATHLETES

As triathletes prioritize protection from hits and wide vision, some goggles are more adapt than others for triathlon. Both goggles for competitive and fitness swimmers can meet triathletes needs nevertheless.

UNISEX ADULT

Goggles designed for all adults, thanks to their adaptable fit.

WOMAN

Goggles specifically tailored for ladies, providing a smaller fit, feminine colours and a more gentle touch on the skin.

JUNIOR

Goggles tailored for 6-12 year old swimmers, provided with a gasket design that suits smaller eye-sockets.

KIDS

Goggles suited for 2-5 year old swimmers, prioritizing safety, ease of use and comfort.

COBRA

BEST TECHNOLOGY. HIGHEST PERFORMANCE.

Cobra goggles are the most advanced performance goggles for competitive swimmers on the market. The family is now enriched by the new Cobra Edge: superior hydrodynamic design, unprecedented side and upward vision, increased eyelash space and improved nose bridge and gasket fit for a better comfort: the state-of-the-art goggle, equipped with Cobra family's unparalleled anti-fog technology: Swipe. Also in the family: Cobra Ultra, with its sleek hydrodynamic construction and Cobra Core, mostly known for their comfort, both share frame-integrated lenses, reducing drag to the extreme. At the same time, both Cobra Ultra and Cobra Original present an ingenious extended frame for extra stability when on. Besides, Cobra goggles are enviously cool: their aggressive look gives swimmers an edge over their rivals.

FSC PAPER MIX

AIR

COMFORTABLY LIGHT.

How goggles feel can be a game-changer for both fitness and competitive swimmers. Our Air goggles prioritize lightness and comfort with gaskets that reduce pressure and suction pain. The special honeycomb texture of the Air Seals ensures a soft yet watertight fit. Moreover, all Air Bold goggles are equipped with the most advanced anti-fog technology: Swipe. Now, the new Air Sonic takes comfort to the next level with CloudFlex technology, offering greater stability and a more ergonomic design that flexes to adapt seamlessly to the face for a secure yet ultra-light fit.

FSC PAPER MIX

THE ONE

DESIGNED TO FIT EVERYONE.

Made for fitness swimmers, the One goggles are designed to fit every type of face with their distinctive design. We studied facial anatomy to craft seals that better sit around the eye socket. The result is a goggle that ensures a perfect fit and excellent comfort. It's no wonder The One is an arena bestseller. The "one fits all" concept has now been improved even more with the new entry of the family, The One Plus, which brings comfort and fit to a whole new level. The One Plus also features a new anti-fog technology that lasts 2.5x longer than a standard one. Now available in a polarized version for enhanced vision and reduced glare in bright environments.

FSC PAPER MIX

SPIDER

PRACTICAL AND COMPACT.

Spider goggles are the perfect choice for swimmers who want a practical and compact solution. Made for recreational and fitness swimming, their simplicity is what makes them so good. All Spider goggles have a silicone strap with a single clip for easy adjustment, even for kids. The self-adjusting nose bridge adapts intuitively to your facial structure.

FSC PAPER MIX

ARENA ESSENTIALS

ALL YOU NEED. SPEND LESS.

A collection of classic goggles with basic features, designed to deliver great value for money and guaranteed by the quality of the arena brand.

CAP

Silicone 100%

13 x 23,7 x 5 cm

070 blue-clear blue-white

092 fuchsia-clear fuchsia-white

CAPS FEATURES

WRINKLE FREE

3D moulding gives the cap its ergonomic properties and eliminates wrinkles, making for a smooth glide through the water.

PVC FREE

No PVC (polyvinyl chloride) plastic has been used.

WATER REPELLENT

The superior water repellency of silicone and latex ensures that water does not penetrate the cap and reduces drag.

EXTRA COMFORT

The selection of material and design ensure that the cap fits snugly, while also providing elasticity and ease of use.

EASY TO WEAR

The design and the materials used in these caps make them especially easy to put on.

SUITED FOR LONG HAIR

The cut, material, design and manufacture are tailored specifically towards swimmers with long hair, making the cap easy to wear.

SMART CAP

Based on the combination of a band that holds your hair and breathable cap that protects it from water, the award-winning Smartcap is specifically designed for long hair swimmers.

CAPS

COMPETITIVE

Designed for competitive swimmers and approved by FINA, arena Racing caps are the benchmark for water drag reduction and high-level hydrodynamics.

FITNESS

High quality caps coming with a design language delivering bright colours, eye-catching graphics and innovative materials for who wants to stand out from the crowd or simple and geometric lines combined with essential materials for the sports purists.

005371 - AQUAFORCE WAVE CAP

The next level go-to-racing cap.

FEATURES

Wave structure design to reduce water drag profile by 27%.
Inner anti-slip design to prevent the cap from slipping off.

FOOTWEAR FEATURES

DRAINAGE HOLES

Holes are placed in the sandal's footbed to expel water, allowing the sandals to dry quickly and remain comfy.

MASSAGE EFFECT

The "picot" footbed stimulates the sole with its embossed design.

EASY TO WEAR

The construction and the materials used in these sandals make them especially easy to put on.

QUICK DRYING

The material doesn't absorb water and dries quickly.

ULTRA LIGHT

The use of EVA in soles makes the sandals extremely lightweight.

EXTRA CUSHIONING

Materials and construction of the footbed yields superior softness and cushioning.

FOOTWEAR

SANDALS

Hypoallergenic sandals that stands out from the crowd for their signature and essential lines are provided with the best materials.

POOL: designed for the pool, with distinctive features tailored for water management: drainage holes (letting water flow out of the insole to keep it dry).

LIVING: following and anticipating today's trends, they bring their sporty DNA into leisure environments.

WATERSHOES

Basic lines combined with highly quality materials deliver a classic style and a reliable performance.

003787 - NINA
