## Description

L'Endorphin Pro 4 est la 4ème génération de notre première super chaussure. Une chaussure haut de gamme, rapide et légère pour le jour de la course, les courses tempo difficiles ou les intervalles. Notre style éprouvé est conçu pour vous donner l'avantage compétitif dont vous avez besoin pour tenir la distance.

## Caractéristiques et avantages

- A top layer of our premium PWRRUN HG foam is molded with supercritical process to enhance energy efficiency with a durable bottom layer of PWRRUN PB which combined provides a snappy and bouncy underfoot feel.
- Speedroll technology combined with our proven and stiffest full length Carbon Fiber plate engineered in a unique shape to provide quicker turnover from start to finish.
- Ultra-thin layer of XT-900 carbon rubber for excellent traction and durability.
- A breathable and airy single layer mesh with attached flat knit tongue for a comfortable sock-like feel.

## Description

The all new Endorphin Pro 5 is a premium, carbon-plated super foam race day shoe that helps you smash your personal best with ease. Featuring a PWRRUN PB base, Super Critical PWRRUN HG top layer, and a new aggressive Carbon fiber plate, it makes running faster, and more fun giving you the competitive edge.

## Caractéristiques et avantages

- **PROVEN FOAM:** Super critical PWRRUN. HG works with PWRRUN PB to provide a dynamic platform for lightweight, responsive performance.
- **UPGRADED CARBON PLATE:** Experience enhanced SpeedRoll with a faster, smoother ride with a new slotted plate design.
- **TRACTION AND DURABILITY:** Now using our PWRTRAC rubber outsole, this carbon plated super shoe is enhanced with better grip and surface abrasion, withstanding the miles with you as you chase PR's.

### Description

Designed as an up-tempo shoe, it's quickly proven itself as much more, equally capable during long, moderate training sessions and sprints to the finish.

### Caractéristiques et avantages

- Energy efficient PWRRUN PB foam bounces back with every step combined with a winged nylon plate that provides torsional rigidity while maintaining flexibility in the forefoot, making for a sure footed, snappy ride
- SPEEDROLL technology for effortless speed and addictive forward motion you can rely on daily
- Increased amount of rubber coverage in the heel, extending further up the shoe and to the edges for added durability
- Full length longitudinal groove to add increased flexibility for a more natural, smooth transition in your gait cycle
- Brand new engineered mesh that's lightweight for your up-tempo efforts, and built with comfort so you can enjoy it everyday

### Description

L'Endorphin Trainer est notre première chaussure d'entraînement rapide et légère qui combine l'innovation, l'efficacité et la sensation distinctive de la franchise Endorphin, mais conçue spécifiquement pour les courses d'entraînement de tous les jours et les semaines à fort kilométrage.

### Caractéristiques et avantages

- A top layer of our lightest, most efficient and most responsive **incrediRUN** foam combined with a structured bottom layer of our highly durable **PWRRUN** results in unmatched efficiency but in a stable and durable platform that is more forgiving.
- **Speedroll** technology tuned for training with an everyday specific  $\frac{3}{4}$  length carbon fiber plate slotted in the back to enhance toe off but allow for smoother landings.
- Durable **XT-900** carbon rubber strategically placed in high abrasion areas to give the traction and durability of a daily trainer without compromising the efficiency of a highly responsive super shoe.
- Secure and structured engineered mesh upper with a more traditional foam package to provide exceptional comfort over long distances.

### Description

La Guide 18 est notre chaussure d'entraînement à amorti maximal. Conçue pour le confort et la protection, la Guide 18 est une chaussure d'entraînement de tous les jours qui combine notre mousse PWRRUN souple et réactive avec notre technologie exclusive Center Path qui maintient le pied centré et soutenu pour offrir la meilleure expérience sous le pied en conservant une ligne centrale standard, en augmentant la hauteur des parois latérales et en la construisant sur une forme de bascule pour faciliter le décollement des orteils.

### Caractéristiques et avantages

- Maximal Cushioning shoes have a broad base geometry where the foot sits deep inside a stable platform resulting in an exceptionally well cushioned ride but one that also provides protection and inherent support
  - Featuring Center Path Technology, asymmetric geometry that centers the foot from lateral crash through toe off to provide a more consistent, balanced and supportive experience
  - Plenty of soft and responsive PWRRUN foam underfoot for smooth and comfortable miles and ultimate protection
  - XT-900 carbon rubber outsole for durable traction
  - Breathable and supportive engineered mesh upper for versatile wearability

### Description

La Guide 18 est notre chaussure d'entraînement à amorti maximal. Conçue pour le confort et la protection, la Guide 18 est une chaussure d'entraînement de tous les jours qui combine notre mousse PWRRUN souple et réactive avec notre technologie exclusive Center Path qui maintient le pied centré et soutenu pour offrir la meilleure expérience sous le pied en conservant une ligne centrale standard, en augmentant la hauteur des parois latérales et en la construisant sur une forme de bascule pour faciliter le décollage des orteils.

### Caractéristiques et avantages

- Maximal Cushioning shoes have a broad base geometry where the foot sits deep inside a stable platform resulting in an exceptionally well cushioned ride but one that also provides protection and inherent support
  - Featuring Center Path Technology, asymmetric geometry that centers the foot from lateral crash through toe off to provide a more consistent, balanced and supportive experience
  - Plenty of soft and responsive PWRRUN foam underfoot for smooth and comfortable miles and ultimate protection
  - XT-900 carbon rubber outsole for durable traction
  - Breathable and supportive engineered mesh upper for versatile wearability
- BEST FOR Daily Runs**
